Product Name: [Freedom Carrier - Mobility Scooter trailer!](#)

Category: [Accessories - Scooter](#)

Model: Freedom Carrier

Description:

Experience a new sense of freedom with the Freedom Carrier , a spacious trailer designed specifically for use with scooters Your mobility scooter gives you the freedom to move about but when it comes to doing the weekly shop it can be a pain trying to get those heavy shopping bags home – and hanging shopping from scooter handlebars can be unsafe and will seriously affect handling. High storage capacity Thankfully, the Freedom Carrier makes this problem a thing of the past. The Freedom Carrier is a spacious trailer that will connect to the vast majority of mobility scooters and provides the capacity to carry up to six shopping bags. Sturdy and robust As well as shopping, the Freedom Carrier is ideal for a variety of other leisure activities such as picnics and trips to the park. Anywhere your scooter can go the Freedom Carrier can go too! Although light in weight, its robust build and its ability to follow the scooter perfectly mean the Carrier is equally at home on grass and gravel as it is on the road or pavement. Stylish design The Freedom Carrier's chunky styling blends perfectly with the design of most mobility scooters. Your scooter will never look out of place with the Carrier attached. Easy to connect The Freedom Carrier is very straightforward to attach to your mobility scooter, clipping into place in three easy movements. The lid is also fully lockable with a large key, so if you need to leave your scooter unattended for any reason you can feel safe in the knowledge that your valuables are secure within the Carrier. Easy to use The removable lid is completely weatherproof, so come rain or shine your shopping will get home dry, even if you don't! It's also very easy to access from a seated position, so if getting off your scooter can be a problem for you, loading and unloading the Freedom Carrier is not. RRP £275, save 33 % when you buy it now!
